

ORA COVID-19 PROTOCOLS

Orlando Rowing Association put the following protocols in place over the summer for all activities at the boathouse which are under continuous review and changes are made as warranted.

- When in session the large openings on the lake and parking lot sides of the boathouse are open and fans are operating to maximize ventilation.
- Temperatures are taken of each athlete prior to entry each day.
- Antibacterial gel/spray is placed at points around the boathouse and frequent use is encouraged.
- Masks are worn by all individuals on entry to the facility and when in a group setting.
- PPE is provided to rowers who do not have masks on arrival
- All equipment is cleaned with disinfectant on each use.
- Land workouts are carried out in small groups.

Parents are encouraged to alert the Coaching Staff and/or ORA Board members with any concerns regarding these protocols and behaviors at facilities.
